Hydraulic Controls to promote HICs at QME

Hydraulic Controls will display a new range of locally manufactured hydraulic integrated circuits (HICs) on **Stand 6055** during the 2008 Queensland Mining and Engineering (QME) exhibition at the Mackay Showground from July 22-24.

New products on display will be roof and rib-bolter controls designed and manufactured under the current MDG guidelines.

Standard features include:

- load sensing
- high-flow timber-jack
- slow collaring
- feed down rotation
- manual water flush
- semi-automatic drill feed and return on roof-bolters
- auto controls including rotation function
- soft approach
- rig isolation
- power off cancel.

The new rib-bolter also incorporates in-built auxiliary valve banks with up to 7 extra functions.

Also on display will be a range of stainless steel water flow controls and pilot check valves for applications requiring up to 350 bar.
