## Robertsons to emphasise lifting and rigging safety and service at QME

**Robertsons Lifting and Rigging** will focus on the safety and service aspects of its lifting, rigging and height safety product range on **Stand 7103** during the 2008 Queensland Mining and Engineering (QME) exhibition at the Mackay Showground from July 22-24.

The company supplies Australian industry with products such as chain, wire rope, rigging gear, height safety equipment and fall arrest systems.

“However, stock alone does not solve all the problems our clients face,” Robertson’s Robert Vella said.

Therefore, to ensure clients receive the best possible advice, Robertsons has an on-going staff training program covering the company’s products and their associated safety procedures.

Robertsons also offers on-site services such as:

- inspection and servicing reports and repairs of lifting, rigging and height safety equipment
- installation and service of height safety fall arrest and restraint safety line systems
- testing of lifting equipment, fall arrest systems and anchor points.

All of the company’s branches (Brisbane, Gold Coast, Toowoomba, Brendale, Mackay, Gladstone, Sydney, Melbourne, Dandenong and Perth) have a NATA-accredited testing laboratory that complies with ISO 17205 standards.
