

MEDIA RELEASE

NHP On Show in its 40th Year at QME

NHP Electrical Engineering Products will display a wide range of its products for use in mining and exploration on **Stand 1014** during the 2008 Queensland Mining and Engineering (QME) exhibition at the Mackay Showground from July 22-24.

The company, which is celebrating its 40th anniversary this year, will feature its:

- Solutions Centre - a fully operational, portable, motor control centre showcasing NHP's extensive range of low voltage switchgear products and automation solutions. The selection of products featured are designed to address typical scenarios experienced in private industry involved in such fields as mining, manufacturing and processing.
- Zanardo 316 grade stainless steel IP66 sloped roof enclosures. Standard features include an integrated roof (with overhang) sloped at 38 degrees to prevent settling of coal dust, 2mm zinc plated mounting plate and stainless steel 3mm DIN lock. External mounting flanges top/bottom ensures the integrity of the IP66 rating of the enclosure.
- Bernecker & Rainer Industrial PCs. The APC620 series is available in a version which is battery free, making it suitable for use in underground coal mines. The compact PC is fan-free and has no moving parts, ensuring its resilience in harsh environments.
- Proconect industrial isolating plugs and sockets. The 3PS range which is AC23 rated is available in five sizes: 16 A, 32 A, 63 A, 125 A and 200 A.
- Spohn & Burkhardt's fully motorised FSMMD operator's chair which has full electrical movement for all chair and console positional adjustments as well as 10-position memory recall. In conjunction with the chair, NHP is offering the Australian-manufactured Owen Slim Line Pedal, a low profile swing pedal system which is mounted on adjustable legs and rotates 360° with the FSMMD chair.
