NationWide Hire shows off new light truck range at QME

NationWide Hire will display the car license-capable Isuzu 4x4 light truck, the newest addition to its light truck and commercial range, on **Stand 1014** during the 2008 Queensland Mining and Engineering (QME) exhibition at the Mackay Showground from July 22-24.

NationWide Hire has just expanded its range by adding car license-capable Isuzu 4x4 single and dual-cab trucks. They come in either three or seven-seater variants and with a choice of 4500 kg GVM or 6000 kg GVM.

John Wilton, general manager of NationWide Hire, said the idea was developed last year with the introduction of the new generation Isuzu N-series trucks, and the response from customers had been overwhelming.

“We already have a number of the new trucks out and about working. The dual-cab model is an ideal replacement for the Toyota Troop Carrier as it can seat seven comfortably and still has plenty of room for equipment in the tray.”

Wilton said the range is ideal for mine sites and pipelines as all models come standard with dual airbags, “something the Toyota LandCruiser Trayback and Troop Carrier fail to provide even in 2008”.

These trucks complement NationWide’s range of service/fuel trucks – in 8x4, 6x6, 6x4 and 4x4 configurations. There are also crane trucks, water trucks and fitters’ rigs and unique 4x4 buses.

“NationWide Hire continues to listen to our customers, resulting in innovative ideas,” said John. “We really do try to make sure our clients can get their entire project fleet with one phone call.”
