

MEDIA RELEASE

Samson Controls shows off new valve technology at QME

Samson Controls provides process control technology, regulators, control valves and accessories to all sectors of the process industry. They will have a range of new valve control technology on **Stand 6103** during the 2008 Queensland Mining and Engineering (QME) exhibition at the Mackay Showground from July 22-24.

Their new 3730 series of electronic LCD positioners are available in 4-20 mA configuration through HART, Profibus and Foundation Fieldbus as well as Eex'D' models with mounting kits for Samson and all other manufacturers' valves

Samson Controls can help with the engineering and sizing of control valves and regulators, as well as supply ball, butterfly and plug valves, among others.

Its Sydney premises is a one-stop shop for industrial valves, with a well-equipped store and workshop, specialising in valve maintenance and repair.
